

GVL® LASER NEW RELEASE

The Newest Addition to Cold Laser Therapy & The World's Most Energetic Laser.

The GVL was shown to be the most effective wavelength combination for the increase of ROM and decrease in pain in a single session. This is currently the first and only green wavelength laser FDA cleared for pain and inflammation. Unique to the green wavelength is the ability to affect complex 3 in the Electron Transport Chain (ETC). No other wavelength can impact this complex, and it is critical for moving to complex 4 to produce ATP.

Shown to stimulate complex 1, 2 & 3.

Payments as low as \$410 per month.

**Price may vary, does not include tax & shipping.*

Specifications

- Configuration: (2) 7.5 mW Line Generated Laser Diodes with Patented Optics
- Wavelength: 520nm & 405nm
- Modulation: Constant Wave (CW) & Pulsed (Hz)
- 100 User Defined Memory Channels
- 1 Preset Protocol Channel
- Display: Full Color TFT Touchscreen Technology
- Power Source: 3.7 VDC Lithium-ion Polymer Battery
- Enclosure: Machined Billet Aluminum
- Weight: Less Than 1lb. (.30 kgs) (Device Only)
- Accessories: Power Cord, Wireless Charging Base, and Safety Glasses
- Compliant to: ISO 13485 Medical Device Quality, IEC 60601-1, 60601-1-2, IEC 60825-1, CB Certified, CE Mark, CMDCAS
- Laser Class 2 / Device Class II (USA); 2a (EU)
