

EVRL LASER ★ MOST POPULAR

The EVRL, since its release, has become our most popular handheld device by offering the versatility of a red and violet wavelength taking outcomes to a whole new level. By combining these two specific wavelengths into one treatment modality, patients received better results during clinical studies than using just 635nm alone. Experience the freedom of this incredible new technology – Improving health and wellness has never been easier.

Shown to Stimulate Complex 1, 2 & 4

Payments as low as \$311 per month.

Specifications

- Configuration: (1) 7.5mW Line Generated Red Laser Diode, (1) 7.5mW Line Generated Violet Laser Diode with Patented Optics
- Wavelength: **640nm & 405nm**
- 1 Preset Protocol Channel
- Modulation: Constant Wave (CW) & Pulsed (Hz) (Red Only)
- 100 User Defined Memory Channels
- Display: Full Color TFT Touchscreen Technology
- Power Source: 3.7 VDC Lithium-ion Polymer Battery
- Enclosure: Machined billet aluminum
- Weight: Less Than 1lb. (.30 kgs) (Device Only)
- Accessories: Power Cord, Wireless Charging Base, Safety Glasses
- Compliant to: ISO 13485 Medical Device Quality, IEC 60601-1, IEC 60601-1-2, IEC 60825-1, CB Certified, CE Mark, CMDCAS
- Laser Class 2 / Device Class II (USA); 2a (EU)
